

# Is your family REALLY safe?

## Your Family is Your Most Precious Asset

Children. When they are little, their hug is warm and cuddly. As they get older, they walk by your side. For you, they are life's focus and you want to protect them.

## You've Outfitted Your Home with New Generation Technology Just for Them

**You've given your family everything:** lightning fast computers, digital cameras, plasma flat screens, an updated version of Anti-Virus, the latest DVDs, MP3s, and... the list is endless. But only the best for your family.

## Ask Yourself:

**Are your key control & front door security at the same cutting edge?**

O.K. You've got all the latest inside. But what about the entrance to your home? Do you have control over who has copies of your front and back door keys? Are the locks & cylinders opening your front and back doors at the same cutting-edge? Did it occur to you that the first step to giving your family the best, is installing a cylinder that helps deter prowlers and burglars?

## Today's Robbers are Sophisticated Intrusion Engineers

Today's lock pickers are shrewd enough to study the way your door is bolted. Shrewd enough to tackle the interior design of numerous common locks. Shrewd enough to get to know your household key holders.

## Don't Push Your Luck. Change Your Lock.

Instead of letting intruders pick your lock, pick the best. Pick a High Security, advanced cylinder that will upgrade the security of your family.

## Look for Mul-T-Lock - The Heart of High Security.

- **Authorized locksmiths** chosen, trained and continually supported by the company, delivering its professional know-how, advanced technology and excellent customer service.
- **Exclusive patented products**, protected by law against uncontrolled distribution to unauthorized and unprofessional sales points.
- **Personal key cards** provided with every cylinder, enabling the authorized locksmith to identify the owner before key duplication – for strict key control.
- **Advanced locking mechanisms** that meet the toughest international standards, and provide an outstanding level of protection.

**Remember**  
**Your Door is Only as Safe as its Cylinder**

Only a sophisticated, technically upgraded, **High Security Cylinder** enhances up-to-date protection against intrusion and unauthorized key duplication.
